11. The final acceptance or recommendation for acceptance will rest with the Executive Engineer, Buildings Division, Bangalore. The successful contractor should bind himself to abide by the departmental rules in force and execute the necessary mutchalika on receipt of intimation of acceptance of his tender, failing which his earnest money will be forfeited.

12. Under no circumstances will a father and his son or other close relations be allowed to tender for the same contract as separate competitors. A breach of this condition will render the tenders of both the parties liable for rejection.

13. The submission of a tender by a contractor implies that he has read this notice and the conditions of the contract and has made himself aware of the scope and specifications of the work to be done and of the schedule of rates, etc.

14. In all matters of disputes about rates, measurements, quantity and quality of work, etc., and in all other disputes of any kind, the decision of the Chief Engineer for Roads and Buildings in Mysore, Bangalore, will be final and legally binding.

15. The rates quoted shall hold good if the tender is accepted within six months from the date of tender and shall thereafter be binding for the execution of the entire work.

16. The contractors will please note that the conditions will in no case be relaxed.

17. Those who cannot abide by the conditions need not tender.

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

The Chief Secretary to the Government of Mysore is Indian Arms Act and Rules to residents in Mysore State. The present practice for crediting the fee for both grant or renewal of such licenses has been that the applicant or licensee should credit the same in the Imperial Bank of India, Bangalore. This has caused a lot of inconvenience to the persons concerned.

It has now been decided as a part of Federal Financial Integration Scheme that license fees collected under the Indian Arms Act and Rules would be retained by this Government itself. Persons who wish to credit the license or renewal fee are requested to credit the same in future in any of the District or Taluk Treasuries in the State and produce the chellans to the District Magistrates concerned along with their applications.

Press Note.

The following Press Note dated 24th February 1950, issued by the Government of India is republished for general information:—

"As a result of the negotiations which have been taking place in New Delhi between the Minister for Sweden in India and the representatives of the Government of India in regard to promotion of trade between India and Sweden, letters have been exchanged between Mr. C. C. DESAI, Secretary to the Government of India, Ministry of Commerce and Dr. Gunnar Jarring, Minister for Sweden in India.

2. In accordance with the understanding reached between the two Governments, it has been agreed that India and Sweden will use their best endeavours to promote the trade and shipping of the two countries and will also give fair and equitable treatment to all questions arising in this connection. The Government of India emphasised that the Indian import licensing policy for the period January-June 1950 was based on allocations of quotas for import of various goods and commodities from different currency groups and that licences for imports into India of any particular goods or commodity from Sweden during this period would be granted on the same basis as licences for imports from any other soft currency country. It was also confirmed on behalf of Sweden that the recent liberalisation of imports into Sweden from O.E.E.C. countries, had also been extended to imports from India.

3. The discussions between the representatives of the two countries also covered the question of supply and availability in each country of commodities important to the economy of the other and the mutual facilitation of the supply of such commodities.

4. The following are some of the products available from Sweden:—

Chemicals and chemical preparations;

Machinery, including engines, printing equipment, machines tools, rock drilling and diamond core drilling machines, paper, plywood, hardboard and match making machinery, saw milling and wood-working machinery, agricultural and dairy equipment, tractors, pumps and well boring machinery, office machines including typewriters, adding and calculating machines, industrial sewing machines.

Heavy Electrical equipment, including generators, turbines, switchgear motors, transformers, cables and telephones.

Ball and roller bearings. Timber including bobbin blocks, hardboard and tea-chest plywood. Paper of different kinds; including newsprint and board; Old news papers.

Refrigerators, domestic appliances, tools and hardware. Wood screws and hinges.

Scientific, surgical and other instruments. Pulp for paper and rayon manufacturing; Special steels and steel products, including ferro alloys and tungsten carbide.

5. Some of goods available from India are:

Cotton textiles, jute goods, raw wool and woollen manufactures (carpets and rugs) coir mats and other manufactures, cotton waste, Leather and leather goods, rubber goods, hides and skins, Mysobalan, Sports goods. Drugs and medicines, Vegetable oils and oil seeds, Essential oils and oil seeds, Spices and cashewnuts, Tea, Coffee, Tobacco, Shellac, Mica, Manganese and Magnesite, Fishing nets, and lace and embroidered goods, Crushed bones. Rosewood

6. Licences for export and import will be granted in accordance with the rules and regulations in force in either country from time to time."

HEALTH OF LIVESTOCK DURING MARCH 1950.

In their order of severity, outbreaks of Blackquarter, Foot and Mouth, Anthrax, Hæmorrhagic-septicæmia, Contagious goat pleuro-pneumonia, Sheep pox and Rabies were encountered in the State during March 1950. The State was free from Rinderpest during the month. Altogether 348 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 377 villages during the previous month. The number of outbreaks was highest in Bangalore, Tumkur and Kolar Districts, while Hassan, Chikmagalur and Shimoga Districts were least affected. These diseases accounted for 2,031 attacks of which 713 succumbed, as against 3,392 attacks and 689 deaths during the previous month.

The departmental staff undertook 28,595 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease, as against 28,359 inoculations and vaccinations during the previous month. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Diseases caused by internal parasites were reported from 199 villages resulting in 119 deaths, as against 191 villages accounting for 164 deaths during the previous month. The special staff attached to the Parasitic disease control units and the Sheep Breeders' Associations of the Department dosed 13,328 animals, as against 12,574 animals during the previous month.

The rest of the Livestock remained free from diseases during the month, and fodder and water were generally available throughout the State.

SCHOLARSHIPS TO INDIAN STUDENTS BY THE STUTTGART UNIVERSITY IN GERMANY.

The Stuttgart Technical University in Germany is willing to grant remission of fees and to grant a cash stipend for a Semester or two up to a maximum of 200 D M (approximately Rs. 240) per Semester for studying at the University. Though there is no formal and specific commitment on the part of the institution, yet they would be willing to take quite a few Indian students depending entirely on the interest of students and their qualifications. Qualified Indian students, admitted to the institution, and granted scholarships, may pursue any course of study offered.

There are (1) the faculties for natural science and intellectual sciences with sections for mathematics and physics, chemistry, geology and biology for intellectual sciences and professional education. (2) The faculty for architecture (building) with the sections for architecture and building engineers. (3) The faculty for machine building with the sections for machine building and for electrotechnics.

Completion of the German Secondary School, Gymnasium, or its equivalent, is required for admission to the courses of study, and there is no re- instruction than the German language. Lectures at the University normally begin on 1st November and 1st May.

Candidates must be in a position to meet their travelling expenses and also to supplement the partial assistance that the Stuttgart Technical University may give them.

Students of the Mysore University may submit their applications, in triplicate, in the prescribed form to the Ministry of Education, Government of India, New Delhi, before 31st May 1950.

The final selection of scholars rests with the Stuttgart University in Germany to whom the applications received by the Ministry will be forwarded through the Indian Military Mission in Germany.

Form of application and other particulars can be had by calling at the Office of the Education Secretary to Government, Public Offices, Bangalore.

FOOD PRODUCTION DRIVE IN MYSORE STATE FOR THE FORTNIGHT ENDING 15th APRIL 1950.

Seasonal conditions were very unfavourable. There has been no rainfall and the summer crops have suffered considerably. The level of water in the Krishnarajasagar Reservoir has gone down considerably and this has very seriously affected the summer ragi and paddy campaign in Mandya District where excellent results were achieved last year. Even in other districts the tanks have dried up and the paddy crop is withering. The total area so far transplanted under paddy, ragi and jola in water receded areas is noted below :—

		Acres
1	Summer Ragi	... 995 00
2	Summer Paddy	... 10,169 00
3	Jola in water receded areas ...	... 1,303 0)
4	Bengal Gram	... 183 · 00

With a view to giving immediate assistance to raiyats to irrigate the standing crop of paddy and ragi, arrangements were made for the purchase of 40 Diesel Engine sets. These have been taken delivery of and issued to the raiyats on hire. The demand for the pumps having increased enormously, orders have been placed for another forty sets. These are all purchased from the loan sanctioned by the Government of India for the purchase of Electric Pumps and Diesel sets.

The two lift irrigation works, one at Nilasoge and the other at Harihar, were completed and water is being pumped for irrigation. About 100 acres are brought under cultivation.

The works under construction of big tanks, restoration of minor tanks, deepening of tanks by desilting, improvements to tank and river channels, etc., are in rapid progress.

About 107 acres of marshy lands have been reclaimed in Shimoga District and the Visvesvaraya Canal area during the fortnight.

The Special Chief Engineer has issued instructions to all the Executive Engineers to expedite the works connected with the Irrigation Department.

The Revenue Commissioner in Mysore, Bangalore, has been regularly reviewing the statement of progress made in the disposal of land under the Grow More Food Campaign. It has been observed that out of the total extent of 3,01,060 acres of lands granted from the commencement, an area of 58,092 acres was cancelled since they were not brought under the plough and an extent of 20,400 acres of land were brought under the plough to the end of November 1949. He has instruct all the Deputy Commissioners of Districts to see that the lands granted are actually brought under the plough enforcing the condition

reports that sanction has been accorded for the appropriation of 17,546 acres and 6 guntas of dry land and 387 acres and 34 guntas of irrigable dry land in that District and instructions have been issued for the speedy disposal of the dry lands free of upset price to the landless depressed classes and at reasonable upset price to the poor and landless persons other than depressed classes. The irrigable dry lands will be disposed of in auction in blocks of 2 acres.

Similarly, the Commissioner for Rural Development has reviewed the progress of work achieved in the manufacture of compost manure and has stressed the importance of this work.

With a view to make available manures in large quantities, permission has been granted to issue double or even treble the prescribed dosage, wherever raiyats demand a higher dosage. As the stock position is also good, these measures have been taken to prevent the stock being subjected to weevils, etc.

Co-operative Farming.—Two places in Chitaldrug (Arehalli Kaval and Vanake Maradi Kaval in Holalkere Taluk) have been selected for starting co-operative farming. Action is being taken to register the Societies and enrol members and to complete all the preliminaries before the 25th April and another Co-operative Farming Society has been registered in Aspathre Kaval in Hunsur Taluk.

Agricultural operations in the kavals will be taken up after the first showers.

During the fortnight, the Commissioner for Food Production in Mysore toured in Tumkur and Chitaldrug Districts and appealed to the Raiyats to grow more food by availing themselves of the various facilities afforded by Government. Thirty gun licenses have been sanctioned during the fortnight for protecting crops from wild animals.

Four hundred and seventy-one tons of M. S. flats and other part materials were procured and distributed among all the multi-purpose co-operative societies for supply to agriculturists, during the fortnight.

Press Note.

Dated 27th April 1950.

The public are hereby informed that due to the failure of South-West and North-East Monsoons last year, the Krishnarajasagar Reservoir which supplies water for power generation at Sivasamudram and Shimsha has failed. Anticipating certain reduction in the supply of water from this Reservoir for power generation, the Department took necessary action to make Jog Power available to Mysore City and surrounding areas, thus reducing the discharge at Sivasamudram from 1300 cusecs to 960 cusecs. This was achieved by releasing the load on the two generating stations, namely, Sivasamudram and Shimsha to the extent of about 0,000 kw. with effect from 20th December 1949. It was oped that from the contents of the Reservoir supplemented by he inflow in the Cauvery and Kabini valley from the usual reshets during March and April, it would be possible to maintain a discharge of 960 cusecs as measured at Shivasumudram and carry the normal load that was imposed n the two stations.

Unfortunately, as everybody knows, the freshets also have ailed with the result that it has not been possible for the Department to meet the usual demand in Bangalore and Kolar areas. Hence, the power installations rated above 50 H.P. have been imposed a cut of 33-1/3 per cent of their normal consumption. An examination of the water supply condition in the river reveals that even this cut for installations rated above 50 H.P. is not adequate to meet the situation. Therefore, it has been found necessary to impose a cut on all power installations that are served in this area. The department has issued notices to all power consumers to kindly co-operate with the department and reduce their consumption by 33-1/3 per cent, by which it is hoped that we will be able to carry on with the remaining load till the monsoons set in.

While the department and Government are anxious to see that no inconvenience is caused to power consumers who are supplied with power from Sivasamudra and Shimsha, it will be appreciated that the failure of the supply of water in the Cauvery River due to the failure of rains is an act which is beyond the control of the department. In order to tide over this critical situation, the consumers are earnestly requested to co-operate with the department inspite of the inconvenience that might be caused to them. The public and the consumers of power are hereby assured that every effort will be made to restore the cut immediately the water supply condition in the river improves.

In this connection, it may be mentioned that while drastic cuts are being applied on all power consumers, essential requirements, like the requirements of water supply, domestic consumption including lighting and heating are being complied with to the maximum extent possible. It may further be added that no fears need be entertained regarding failure of water supply to Bangalore due to failure of electricity, as even if no water flows in the river Cauvery, power supply to water-supply pumping sets to the extent possible and practicable will be made available from Jog Power supply through Mysore and Sivasamudram.
